

Librarian's Report 2014-1015

Now that Steve Uprichard has uploaded onto the website all the documents that have been scanned, the volume of requests for information has significantly reduced. I can but express my gratitude to Steve for this!

We are also pleased to be about to receive the Alan Lazenbury archive of Club Committee minutes which will be stored safely for future reference.

The photographic archive remains the most challenging aspect of the job since the albums have only been catalogued up to 1930 and there is also a large quantity of unsorted, post 1960 pictures which remain to be sorted, identified and listed.

Having virtually retired from the day job and assuming that he is re-elected at the AGM, the Librarian anticipates having more time to devote to sorting out this archive and also to continue with scanning and saving the significant quantity of periodical extracts which date from the earliest days of the Morgan Motor Co.
