

Pre proposal information for the committee of the Morgan Three Wheeler Club for official recognition of our group. Morgan Three Wheeler Club Touring National/International.

Shortened to, **MTWC Touring**

The background to this proposal goes back several years to when Ian and Maria Parkinson spent over three years attending many Morgan related events with a view to increasing club membership. Over that period a large number of people joined the club through their efforts, the vast majority of those people have remained in the club and lasting friendships have been formed. This new influx of members wanted more than current events offered and Ian and Maria came up with what the members wanted. This group has grown into a larger one mainly by word of mouth into what we have now which is National and International. We have recently seen increased interest from new overseas friends who want to take part in our activities. Local and long distance Morgan Tours are a key part of what we do and the group intends to increase these both in UK and Abroad.

We seek to be incorporated as a group within the bounds of the defined area groups as published in The Bulletin and wish to have access to promote our group gatherings in the same way as area groups with monthly reports by our G O.

Our events and meetings are open to all Club Members to attend, the proven popularity of the events means that spaces are filled very quickly, the IOM trip filled within a week, over a year before the event, people are willing to commit well ahead of our events taking place. We hope that by putting on some extra events this will give more a chance to join in and make new friends.

Ongoing discussions amongst the group have led to the unanimous decision for this proposal to be made. **Our preference for title is MTWC Touring, unless there is a good reason for this to be changed.**

We have a team in place organising events and as in the past club event rules and insurance requirements will be adhered to. Once the new group is approved we shall choose our officials who will represent us and notify the committee.

Our aims are to promote MTWC membership and the use of and enjoyment of Morgan Three Wheelers in all that we do. We believe our proposal to be in keeping with a forward thinking and progressive motor vehicle club and that it will benefit the club overall.

Proposal - For inclusion in the 2020 AGM Agenda.

That **MTWC Touring** be recognised and incorporated as a group within the MTWC.

Ian Parkinson, Maria Parkinson, Chris Golding, Paul Pitfield, Colin Duggan (all on behalf of the group) 13th September 2020.
